SUMMARY

- Self-motivated and enthusiastic **full-stack developer** with hands-on experience in React, Spring Boot and Next.js.
- Strong foundation in object-oriented programming, data structures and algorithms, and RESTful API design.
- Solved **400+** DSA problems on LeetCode, showcasing solid problem-solving and coding proficiency.
- Practical exposure to cloud technologies (**AWS**) and relational databases including MySQL and SQL Server.

WORK EXPERIENCE

Software Developer Intern

Salesforce - A cloud-based software company

Dec 2023 - Jan 2024

Remote, India

- Built custom **CRM features** using Salesforce Lightning, Apex, and Visualforce, enhancing platform functionality.
- Automated workflows with Apex Triggers and Validation Rules, improving process efficiency and data integrity.
- Integrated third-party APIs and optimized data handling using SOQL queries for better performance.
- Collaborated with cross-functional teams to troubleshoot production issues and develop interactive dashboards.

PROJECTS

AcadElevate – Smart India Hackathon Project [🔗 Live Demo](#)

Oct 2024 - Jan 2025

A self-appraisal and performance tracking system for faculty

- Developed real-time activity logging, leaderboard analytics, and automated email notifications using Java, Spring Boot, and MySQL.
- Built an interactive performance dashboard with graphs and charts using React and Chart.js for visual progress tracking.
- Implemented a **career recommendation engine** by combining backend logic in Spring Boot with modular frontend components in React.

DashHost – WebHostManager [🔗 Live Demo](#)

May 2025 - Present

A client data management system for web hosting companies

- Designed a centralized platform to manage domain credentials, website access, and renewal charges using React and Tailwind CSS for a clean, responsive UI.
- Implemented secure login (JWT Token), role-based access, and encrypted data storage using Spring Boot and MySQL.
- Automated email reminders** for domain and hosting renewals with scheduled tasks built using Java and Spring Scheduler.

EchoEcom – E-Commerce Web App [🔗 Live Demo](#)

Apr 2024 - Aug 2024

A full-stack online shopping platform

- Built secure user authentication with JWT, along with product filtering, cart management, and **payment integration** using **Razorpay API**, React and Redux Toolkit.
- Developed a dynamic admin panel to manage products, orders, and users using Spring Boot, Java, and MySQL.
- Designed a responsive UI using Tailwind CSS and ensured efficient component behavior with React Hooks.

EDUCATION

B.P. Mandal College of Engineering, Madhepura

B.Tech in Computer Science And Engineering

CGPA: **8.86**

Nov 2022 - Jun 2026

Bihar, India

TECHNICAL SKILLS

- Languages:-** Java, JavaScript, Python, SQL
- Frameworks:-** Spring Boot, React, Spring, MySQL, HTML, CSS, Tailwind CSS, JSP/Servlet, Hibernate
- Tools:-** Git, Github, REST APIs, Visual Studio Code, IntelliJ, Postman, Redux Toolkit, AWS, MySQL Workbench
- CS Concepts:-** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks

ACHIEVEMENTS & ACTIVITIES

- Volunteered at the Coding Club, promoting peer learning and mentoring students in programming fundamentals.
- Contributed to the **Smart India Hackathon 2024**, developing a faculty self-appraisal platform with analytics and real-time tracking.
- Strengthened **public speaking** and **presentation skills** through active participation in technical events and seminars.
- Secured **3rd rank** at the state level in Class 10 and recognized as College Topper in Class 12 for academic excellence.
