"**Self-motivated**, **enthusiastic**, and **results-driven** aspiring **full-stack developer** with a strong passion for building dynamic, user-centric applications. Eager to contribute to a stimulating environment that fosters learning and growth while leveraging my technical expertise to drive innovation and value for the organisation."

PROJECTS

AcadElevate   Sep 2024 – Present

- Aims to develop an automated system to enhance the career advancement of faculties for higher education.
- Addressing a problem statement from the Smart India Hackathon.
- Providing a comprehensive solution for faculty self-appraisal and career development.
- Implementing real-time activity logging to ensure accurate record-keeping.
- Creating an admin panel with a leaderboard for performance analytics using charts and graphs.
- Integrating a recommendation system to support continuous faculty improvement.
- Setting up automated email notifications and reminders for important updates and deadlines.
- **Tech Used**: HTML, Tailwind CSS, JavaScript, React, Java, SpringBoot, MySQL

EchoEcom   Apr 2024 – June 2024

- Aims to build an e-commerce application includes comprehensive features for online shopping and management.
- Develop user authentication features including registration, login/logout, and secure access with JWT tokens.
- Implement product search, filter products, shopping cart management with CRUD operations, and order placement functionalities.
- Enable product rating and review features, and integrate Razorpay for secure payment processing.
- Create an interactive admin panel for managing users, products, and order statuses.
- **Tech Used**: HTML, Tailwind CSS, JavaScript, React, Java, SpringBoot, MySQL, React-Redux

InnManage   Nov 2023 – Jan 2024

- Aims to build a hotel management system that offers a robust and user-friendly platform designed to streamline room bookings and efficiently manage user interactions.
- Develop user registration and login/logout functionality, secured using JWT tokens.
- Implement room booking, filtering, and search functionality by confirmation code.
- Enable booking cancellation and display booking history for users.
- Design an intuitive admin panel for managing rooms and bookings.
- **Tech Used**: HTML, BootStrap, JavaScript, React, Java, SpringBoot, MySQL

EDUCATION

B.P. Mandal College Of Engineering, Madhepura Bachelor of Technology (Computer Science Engineering)	CGPA (Current) - 8.84 (2nd rank)	Nov 2022 – Present
Maharaja College, Bhojpur Higher Secondary Certificate	Aggregate - 88.2% (2nd rank)	Apr 2020 – Mar 2022
S.H.K. Jain Gyan sthali, Bhojpur Secondary Certificate	Aggregate - 95.6% (1st rank)	Mar 2019 – Mar 2020

TECHNICAL SKILLS

- **Languages**: Java, JavaScript, C++
- **Web Technologies:** HTML, CSS, React, React-Redux, Tailwind CSS
- **Databases**: SQL, MySQL
- **Cloud Platforms**: AWS, Google Cloud
- **Frameworks**: Spring, SpringBoot, Hibernate
- **Tools**: Git, GitHub, Maven, IntelliJ Idea, VS Code, Postman

ACHIEVEMENTS, EXTRACURRICULAR AND ADDITIONAL INFORMATION

- Participated in the Internal Smart India Hackathon, contributing to innovative tech solutions.
- Achieved 3rd rank at the state level in Class 10th, demonstrating academic excellence.
- Solved over 200+ DSA problems on LeetCode.
- Completed an advanced online course on scalable web application development using Spring, SpringBoot, and Hibernate.
- Volunteered at the Coding Club, fostering a collaborative learning environment for peers.
- Created and shared insightful stock market content on YouTube, building a strong online presence.
- Developed strong public speaking skills through various presentations and events.
